Learning Analytics Community Exchange

What is an evidence hub?

Lots of people are talking about learning analytics. But what is the evidence? The LACE Evidence Hub can help you explore what we know about the field, so you can make informed, evidence-based decisions, whether you are a teacher, a manager, a researcher, or a policymaker.

Negative		Positive
1	A: Learning	13
0	B: Teaching	9
1	C: Uptake	7
2	D: Ethics	2

The Evidence Hub is organised around four key propositions:

A. Learning analytics improve learning.

B. Learning analytics improve learning support and teaching.

C. Learning analytics are taken up and used widely, including deployment at scale.

D. Learning analytics are used in an ethical way.

Are they true or not?

The Evidence Hub can help you find the answer.

The Hub has evidence spanning many sectors:

A. Schools / K-12

B. Universities / Higher Education

C. Workplace

D. Informal Learning
